i-Ready

- ▶ i-Ready is an online program for reading and/or mathematics that will help your student's teacher determine your student's needs, personalize their learning, and monitor progress throughout the school year.
- ▶ The i-Ready Diagnostic is an adaptive assessment that adjusts its questions to suit your student's needs. Each item a student sees is individualized based on their answer to the previous question. For example, a series of correct answers will result in slightly harder questions, while a series of incorrect answers will yield slightly easier questions. The purpose of this is not to give your student a score or grade, but instead to determine how best to support your student's learning.
- ▶ i-Ready Personalized Instruction provides students with lessons based on their individual skill level and needs, so your student can learn at a pace that is just right for them. These lessons are fun and interactive to keep your student engaged as they learn.
